

The Veterans Housing & Support Program

MISSION:

To enable and empower
Canadian Veterans
(CAF/Rangers/Reservists) &
RCMP members to attain
independent living and active
engagement in the community.

We achieve this by offering a
safe, drug/alcohol-free,
structured and supportive
transitional housing program.

We aim to enable them to
overcome barriers to improve
their quality of life and
successful reintegration
into civilian life.

Appliances included: dishwasher, oven, refrigerator, electric stove top, microwave, washing machine & dryer

Community room & outdoor amenities

Program Objective

Our comprehensive program is composed of two phases, each phase is structured for up to 6 months and provides a range of services and supports to focus on individual stabilization, rehabilitation, capacity building, and skills development.

Stabilization & Rehabilitation

This 1st phase of the program is facilitated in partnership with allied health professionals. It involves various group and individualized rehabilitation and healing programs, that range from fitness to counselling sessions. Additionally, Caseworkers on-site help provide a supportive environment in which veterans come up with their Individual Development Plan Goals that they work towards.

Capacity Building & Life Skills Development

This is the 2nd phase, which also lasts up to 6 months, provides an intensive, individual development plan. It offers various educational and experiential activities aimed at capacity building, skill enhancement, and community reintegration.
